ABOUT ME

I'm a web designer. Web design is my hobby and passion. I build successful websites based on fast, easy to use, and best practices. I also typically work with the front-end. All my designs are fast, easy to use, beautiful, accessible to all, and free from frustration. The best chance is to meet these challenges and get a line of success from you, keeping in mind your specific business needs.

WORK EXPERIENCE

November 2022 — Present.

Vimirlab Solution

Front End Developer

- I have been working as a front end developer with Vimirlab Solutions since November 2022.
- my all designs are responsive. Which can be seen well on mobiles, tablets, laptops and all devices.
- I can convert layout designs like PSD, Adobe XD, Figma to Html.
- Solving code problems.

April 2022 — November 2022

Wide Web Solution

Front End Developer

- I worked as a front end developer with Wide Web Solution from April 2022 to November 2022.
- Performed front-end development for interactive web applications to improve functionality and user experience using HTML, CSS, and JQuery.
- Designed menu's, forms with validation, pop-ups, slide shows, hand coded components using jQuery and JavaScript.
- Till now I have used jQuery plugin such as intlTelInput, owl carousel, Pagination, sweetalert, select2, datatables, summernote, apexcharts, calender, treeview (hummingbird), emojiPicker, jquery validate, Switchery and so on.
- Have a excellent skills on CSS and also familiar with Bootstrap framework.
